PERFORMANCE. RESPONSIBILITY. INNOVATION.

WienCont stands for **innovative logistics solutions, excellent service and consistently reliable performance** – making it the most efficient trimodal container terminal in Austria.

Since our founding in 1979, we've been operating at the Port of Freudenau in Vienna. Here, in the heart of Europe, **we connect rail, water, and road** to offer our international clients a comprehensive portfolio of container handling services.

All our operations prioritize **resource conservation and economic efficiency**. In rail traffic, we use an innovative momentum-based entry system that eliminates the need for shunting. In addition, by using **hydropower and photovoltaic systems**, we make a significant contribution to **reducing CO₂ emissions** – enabling logistics that are not only powerful, but also sustainable.

THERE'S A REASON WHY WE ARE UNSTOPPABLE.

OUR SERVICES – FOR YOUR SUCCESS

- HANDLING**
Efficient container handling via rail, road, and water – fast, reliable, and digitally supported.
- DEPOT**
Secure container storage including special zones for hazardous goods and reefer plugs.
- CONTAINER REPAIRS**
On-site or mobile repair services – including certified reefer inspections by trained professionals.
- TRADE**
New and used containers for rent or purchase – customizable to suit your needs.
- DIGITAL PROCESSING**
Automated OCR ingate, digital rail gates and innovative entry technologies for efficient container tracking.
- SOLAS WEIGHING**
Certified public weighing site with reach stacker.
- HAZARDOUS GOODS CONSULTING**
Advice from certified hazardous goods officers.
- LAST MILE**
Pre- and post-haulage from our site at the Port of Vienna Freudenuau – in co-operation with experienced partners.
- SUSTAINABILITY**
Reduced CO₂ emissions in terminal operations enabled by photovoltaic systems and the use of HVO 100 biodiesel – underlining our commitment as a klimaaktiv partner in Vienna, an initiative of the Austrian Federal Ministry for Climate Action.

HANDLING

STATE-OF-THE-ART INFRASTRUCTURE FOR MAXIMUM HANDLING PERFORMANCE

Benefit from decades of experience and extensive capacity at one of the Central Europe's leading inland terminals.

The terminal spans around **200,000 m²** and offers optimal conditions for efficient and seamless container handling. With eight high-performance rail tracks directly on site and an annual **handling capacity of around 700,000 TEU**, WienCont is a central logistics hub for rail, road and inland waterway transport.

A **six-lane automated OCR ingate** ensures fast and secure registration of all incoming and outgoing road traffic. A **digital OCR rail gate** also captures all rail movements in real time, enabling full digital documentation and process optimization.

We rely on a **highly trained team and state-of-the-art equipment**, including one barge crane, three 45-ton gantry cranes and 15 container stackers with lifting capacities ranging from 6 to 45 tons.

This makes WienCont not only Austria's most active terminal but also one of the most modern in European inland ports.

TRUSTED CARE FOR YOUR CONTAINER

With **storage space for about 10,000 TEU**, our empty container depot offers large areas for secure temporary storage, **check-in/check-out** and **professional repair** for all types and sizes of containers. **Digital workflows** ensure fast turnaround and transparency.

The depot includes **more than 200 trailer parking slots** for flexible transport and handling solutions. With integrated reefer plugs, it supports temporary **temperature-controlled storage** – ideal for intermediate storage or pre-carriage logistics.

Our location at the trimodal terminal at the Port of Vienna Freudenuau offers **seamless integration** into your supply chain **via road, rail, and water**.

Whether interim storage, condition assessment or technical maintenance – at WienCont, your equipment is managed with precision and professionalism.

PROFESSIONAL REPAIR SERVICES – MOBILE AND ON SITE

WienCont stands for **quality and expertise in container logistics** – and equally for repair services you can rely on. Our goal is to ensure containers are in perfect condition – safe, fully functional, and ready for use. Whether mobile or at the terminal, our experienced technicians perform professional repairs to the highest standards. With many years of experience, technical know-how and a clear commitment to quality, we are your reliable partner for all aspects of container maintenance. **Quality through competence is our everyday standard.**

Flexible service – mobile and on-site

Whether at our terminal or directly at your location – our repair teams are quickly available to minimize downtime and keep your operations running efficiently.

More than just repairs

In addition to maintenance and repairs, we also offer expert advice, condition assessments and CSC inspections to ensure your containers are safe and compliant for international deployment.

CUSTOMISED CONTAINER SOLUTIONS

For **over 45 years**, WienCont has been your reliable partner for the **purchase and rental of containers**. We offer a wide range of **new and used containers** – whether for transport, storage or special applications.

Our portfolio includes **office containers** for flexible use on construction sites or at events, as well as **reefer containers** for temperature-sensitive goods. All units are inspected and can be individually customized upon request.

With direct warehouse logistics at our terminal and a highly experienced team, we can respond quickly and efficiently to your specific requirements. Our sales department combines **technical expertise with market insight**, supporting you from selection to delivery – professionally and personally.

Whether buying or renting – WienCont provides **dependable solutions, tested quality and maximum flexibility**.

PERFECTLY CONNECTED

As a trimodal terminal in the heart of Vienna, WienCont is a **key hub in European freight transport**. Our location serves as a central driving force for logistics in Europe – with high-performance rail links to major seaports and commercial centers.

We offer frequent rail connections to Hamburg, Bremerhaven, Rotterdam, Koper and Trieste, as well as Central and Eastern Europe. WienCont is also a strategic hub for traffic towards Southeastern Europe and Turkey.

With its location on **three major TEN-T corridors – Baltic-Adriatic, Orient-East Med and Rhine-Danube** – WienCont provides direct access to key European transport routes. This strategic position ensures seamless connectivity, short transit times, high service frequency and dependable scheduling across the continent.

With **eight rail tracks**, efficient rail handling and a **fully automated OCR rail gate** for accurate tracking of all train movements, we prioritize maximum efficiency and transparency in rail operations.

WienCont offers sustainable and multimodal rail logistics – **reliable, eco-friendly and perfectly connected**.

MENU

WE DON'T JUST MOVE CONTAINERS – WE MOVE CAREERS

At the core of everything we do is a strong team of around **120 dedicated employees** who bring expertise, commitment and team spirit to ensure that operations remain efficient and on track every single day.

Our colleagues receive regular training and ongoing development, because **true quality comes from people, not just from technology.**

To continue operating at the highest level in the future, we are always looking for qualified professionals in logistics, container handling and metalworking – and for people who want to **shape the future of container logistics with us.**

WE NEVER STOP GIVING THE BEST.

Sounds like a workplace with perspective?
We look forward to receiving your application and getting to know what makes you unique.
